Dear Judge Komitee:

BROOKLYN OFFICE

I withdraw the reconsideration motion filed in 5841 as it is moot considering the re-filed complaint in 23-5656. I tried to file a letter withdrawing this motion several times previously, but its "closed" status raised issues in the clerk's office; hopefully this motion by letter will suffice.

I note for the record that the ~~Reconsideration~~ merits of the reconsideration motion are valid since the court cannot dismiss a complaint pending an amended complaint or because the 41(g) motion was previously raised in the wrong district and dismissed without consideration of the merits to be re-filed in this district.

The only remaining issue is the status of the Rule 41(g) motion on the docket of 22-CV-5841 — I cannot obtain a copy. The CIA transcripts filed were declassified and produced to me by the government — so there should be no sealing issue there — but if so, the issue should be properly litigated in the newly filed complaint, 23-5656.

Finally, 23-CV-5656 is ready for discovery. The government should begin producing all records regarding the laptop and its illegal searches forthwith, and the court should order the government to comply in a timely manner.

Respectfully Submitted
